

Number	Description	Input data	Expected output	Actual Output	Pass / Fail	Actions / Comments
1	Checking the main menu works as expected	Add new sale	The add new sale window should appear	The button worked as expected	Pass	I am going to check if the view sales data button works as expected
2	Checking the main menu works as expected	View sales data	The view sales data window should appear	The button worked as expected	Pass	
Add New Sale window						
1	Checking the window works as expected	Add new sale	The add new sale window should appear with radio buttons to choose the salesperson, an entry box to enter the value of the sale with an add sale button	All of them elements are displayed but the formatting is incorrect	Fail	Before: <pre>value_text_label.grid(row=0, column=2, columnspan=3)</pre> After: <pre>value_text_label.grid(row=5, column=1, columnspan=2)</pre>
2	Checking the window works as expected	Salesperson 1, 15500	A new sale should be added to sales_data.csv with the date and the	Worked as expected	Pass	The add new sale window is complete
View sales data						
1	Checking if the csv file is outputted correctly in terminal	View sales data	The data from sales_data.csv should appear in the terminal in a table format	Working as expected <pre> 22:03:59 05/18/26 Date Value Salesperson Salesperson 1</pre>	Pass	I am now going to work on making the bar chart for the
2	Checking the bar chart displays as expected	View sales data	The data from sales_data.csv should appear in a bar chart format with salesperson names on the x-axis and the sales values on the bar		Pass	Working as expected
Final Tests						
1	Testing that adding sales data works correctly	Add new sale, Salesperson 3, £5000	The bar chart should be updated to show the up to date sales information for all salespeople		Fail	only the first 4 lines of the csv were being read at first. Now it sums up the total for each salesperson. Before: <pre>salespeople = df['Salesperson'] values = df['Value']</pre> After <pre>totals = df.groupby('Salesperson')['Value'].sum()</pre>
2	Checking that the bug fix has worked	View sales data	The sales data in the bar chart should be up to date		Pass	The data is now being displayed correctly. The program is now complete.
